Governor Jon Corzine,

We urge you to be a wise leader and STOP the BLOCKING OF THE GROUND ZERO, NYC SKY-LINE AND RIVER VIEWS BY THE LSP 9/11 MEMORIAL.

We oppose the Liberty State Park 9/11 Memorial design that was chosen without a NJDEP public meeting. The design includes a 10 feet high by 200 feet long Hill that blocks the sacred "national shrine" view of Ground Zero and the lower NYC skyline from the closest place in LSP, and of the river itself that played an important role on 9/11. Eliminating the Public Plaza of the 1889 historic CRRNJ Terminal, the design also includes 2 stainless steel walls, 30 feet high by 200 feet long, which will block views up and down the river. Please listen to the people who love LSP who want a relocation, major revision, or different design.
